

Recovery Science Accelerator Program (Pilot Funding)

Learn More & Apply: prin.uthscsa.edu/accelerator-program

About this program

The Peer Innovation Network (PRIN) is accepting applications for its Recovery Science Accelerator Program. This pilot study mechanism will support pilot projects that will accelerate the transition from discoveries to active and effective recovery programs, advance the field of recovery science, and foster a sustainable recovery science workforce.

This pilot study mechanism is funded by an R24 from the National Institute on Drug Abuse (1R24DA057659-01), and the Helping to End Addiction Long-term® Initiative (or NIH HEAL Initiative®).

Additional information

- Requests for funds of \leq \$50,000 will be considered for project periods of up to 1 year. Funds are available to fund up to 3 projects.
- All project teams must include people with lived and living experience in intentional ways and be able to describe this inclusion on the project team in more than advisory capacities.
- Black, indigenous, and other people of color (BIPOC), Hispanic/Latinx/Latine, and LGBTQ+ identifying individuals are especially encouraged to apply.

About PRIN

The Peer Recovery Innovation Network (PRIN) was created to help expand recovery science by developing a research program on Peer Recovery Support Services (PRSS) and Recovery Support Services.
